We have delivered products to thousands of customers. In the first 6 months of this year we doubled our previous year sales.

Human Resources

MATRIX ROM relies on IT managers and programmers with a strong experience. The Company founders and managers have 30 years of experience in the IT domain, including:

- Over 20 years of experience managing projects;
- Profound product development experience;
- Extensive work on customer sites.

Team

Our team includes young and dynamic, English speaking, programmers and engineers, experts in database, network administration and system analysis. They are capable of software implementations in diverse data base systems (Access, MySQL, FoxPro) and diverse programming language (C++, Delphi, Java, Perl, XML, Visual Basic), for operating systems like Windows and UNIX.

Work Environment

Our employees enjoy a convenient and productive work environment that includes:

- State of the art Pentium 3 and Pentium 4 work stations, printers and scanners.
- A flexible intranet
- Always on, broadband internet access
- State of the art software development tools

Our location

- next to the Bucharest Polytechnical School - provides us with immediate access to IT specialists in the faculty of computers and software. Many students exercised their practice in our company and some of them eventually became employees of the company.
