

Bulletin of Romanian Chemical Engineering Society**Number 1/2022****Cuprins**

Alexandru WOINAROSCHY, *Efficiency and effectiveness in planning and control of any activity*

Adela CIOBANU, Alexandru OZUNU, Cristina MODOI, *The efficiency of infectious medical waste treatment facilities: A comparative analysis*

Mariana GRIGORE (GEAMAN), Anișoara NEAGU, *Impact of polar compounds and additives on diesel fuel lubrication*

Cosmin COJOCARU, Claudia KONCSAG, *Parameters estimation in new kinetic model for mild-hydrocracking process*

Timur CHIS, Ancaelena Eliza STERPU, Olga Valerica SAPUNARU, *Rheological study on Romanian types of oils*

Timur CHIS, Ancaelena Eliza STERPU, Olga Valerica SAPUNARU, *Metals detection in abandoned oil tank farm*

Cristina GRIGORAȘ, Andrei SIMION, Lucian GAVRILĂ, *Synthetic dyes adsorption from aqueous solutions: Overview on process improvement by ultrasound assistance*

Doinita-Roxana CIOROIU TIRPAN, Cristian RADUCANU, Timur CHIS,
Tănase DOBRE, *Extraction of polysaccharides from Ceramium
Rubrum*

Daniel BOTHA, Paul AGACHI, *Poultry litter pyrolysis to address agricultural
and energy challenges in Botswana*

Bokamoso PHUTHEGO, Paul AGACHI, *A feasibility study for the production of
chemical fertilizers in Botswana*

Elisephane IRANKUNDA, Zoltán TÖRÖK, Alexandru MEREUTA, Alexandru
OZUNU, Jimmy GASORE, Egide KALISA, Beatha AKIMPAYE, Theobald
HABINEZA, Olivier SHYAKA, Gaston MUNYAMPUNDU, *Potential source
identification of SO₂ and comparison between modelling results with in-situ
monitoring data: Study case, road networks of Kigali-Rwanda*
