

Bulletin of Romanian Chemical Engineering Society**Number 2/2025****Cuprins**

Ioana Maior, Elena-Alexandra Duță, Emilia-Ioana Toma, Anca Cojocaru, Ioana-Alina Ciobotaru, *Synergistic mixtures of green corrosion inhibitors for steel anticorrosion coatings*

Estera Vasilescu, Alexandru-Cristian Vîlcică, Edna Adriana Anton, Gabriel-Marius Cioroiu, Liviu-Constantin Stan and Doinița-Roxana Tîrpan, *Preliminary study regarding the ethanol production from a mixture of banana, orange and melon peel*

Bianca Simedrea Nicoleta-Oana Demostene, Iuliana Deleanu, Oana Parvulescu, Olga Sapunaru, Tănase Dobre, *Characterization and analytical identification of polyaromatics from diesel fuel*

Grigore Pșenovschi, Ioan Călinescu, Ciprian-Gabriel Chisega-Negrilă, Cristina-Emanuela Enășcuță, *Pyrolysis of plastic waste to obtain gaseous fuel*

Andrei Coman, Silvia Curteanu, *Transparent AI models for chemical process diagnostics: insights from oner and jrip*

Dumitriana-Roberta-Marina Brănescu, Silvia Curteanu, *Explainable AI methods for diagnostics and optimization in chemical processes: case studies with j48, linear regression, M5P and M5rules*

Andrei Laurentiu Niculae, Ioan Calinescu, Petre Chipurici, Radu Chiriac, *Determination of physico-chemical properties and stability assessment of nanofuels containing multi-walled carbon nanotubes*

Cosmin Guran, Adina Gavrilă, Oana Parvulescu, Timur Chis, Tanase Dobre, *Automation of a fire suppression installation in an industrial facility*

Ionuț-Alexandru Popa, Iuliana Mihaela Deleanu, Oana Cristina Parvulescu, Timur-Vasile Chiș, Tănase Dobre, *Dynamic adsorption behavior of volatile organic compounds on a regenerative cellulose-silica gel composite – experimental investigation and mathematical modelling*

Aurelian Șisinea, Florin Bogdan, Mihai Albușescu, *A numerical models to oil water emulsion*

Mihai Virtopeanu, Maria Stoicescu, *Application of the gamma function in oil reservoirs polymer injection modeling*

Hussein Fawzi Hussein, Farqad Rasheed Saeed, Shaalan Bdaiwi Ahmed, Iuliana Mihaela Deleanu, Murad Majid Hussein, *Effect of laser surface heat treatment on wear and hardness resistance of metal matrix composite (AL 336.0 alloy- Y2O3)*

Zhong Cui, Alexandru Ozunu, Jun Meng, *Valorization of livestock and poultry manure through biochar production and its agricultural applications*
